

## Safety Quiz - Confined Space-2

Name \_\_\_\_\_ Date \_\_\_\_\_

**Directions:** Read each question carefully and choose the most correct answer by completely filling in the box next to the answer

1. Confined Spaces can have:
  - A. Areas with limited access
  - B. Areas with atmospheric hazards
  - C. Electrical Hazards
  - D. Any or All of the above
  
2. There are two classifications of confined spaces
  - A. Regulated and unregulated
  - B. Permit required and non-permit required
  - C. Square and round
  - D. Top entry and side entry
  
3. Working with tools in confined spaces can cause hazardous changes in
  - A. Noise levels
  - B. Temperature
  - C. The air you breath
  - D. All of the above
  
4. Employees who work in confined spaces, must
  - A. Be trained and authorized for each type space
  - B. Wash hands before entering
  - C. Have a partner to work with
  - D. None of the above
  
5. Before entering a confined space you should
  - A. Read the Safety Manual
  - B. Know the emergency signals
  - C. Have the right kind of hearing protection
  - D. Review the hazard assessment for that space
  
6. Prior to entering a Permit required confined space
  - A. Management permission is required
  - B. Atmospheric samples must be taken
  - C. An attendant must be at the entrance
  - D. All of the above

7. Prior to entering a confined space, all mechanical hazards must be
- A. Identified
  - B. Controlled by locks and tags
  - C. Removed
  - D. Painted red
8. Before entering tanks with liquid the liquid must be removed and
- A. Stored in metal containers
  - B. Logged on the equipment log
  - C. A sample sent to the lab
  - D. All fluid lines must be blocked
9. One of the hazards of confined spaces is
- A. Entrapment
  - B. Color blindness
  - C. Hand cramps
  - D. None of the above
10. Confined Spaces with atmospheric hazards must be
- A. Monitored before and during entry
  - B. Identified by Yellow Paint
  - C. Locked or guarded
  - D. Both A and C
11. Before entering permit required confined spaces, there must be
- A. A rescue team available
  - B. Water at the access point
  - C. Electrical Power in the confined space
  - D. More than one entry point
12. The attendant at the entrance of a confined space must
- A. Be able to quickly summon help for rescue
  - B. Must know how to enter the space to rescue workers
  - C. Not wear glasses
  - D. Both A and B
